

CEPSA SUPER ESPUMA ACTIVA

AUTOMATIC AND MANUAL WASHING

Description

CEPSA SUPER ESPUMA ACTIVA is comprised of a mixture of surfactants that act as wetting, clearing and degreasing agents.

Applications

- The high wetting power of SUPER ESPUMA ACTIVA allows a uniform cleaning action. Its effective degreasing power makes it versatile to be used both in automatic and manual washing.

Performance

- It does not attack any vehicle components: windscreens, rubber, chrome etc.

Use

- *Venturi injection:*
Prepare a 10-20% premix
- *Dosage pump injection:*
Introduce the pure product and adjust the pump to obtain a concentration at the outlet of between 1-2 %
